

Wood Carriage House Doors Finishing, Care & Maintenance Recommendations

Finishing

Amarr manufactured wood doors are specialty wood products and have natural wood variations. Wood doors require special finishing prior to installation. To finish, preserve and protect your beautiful Amarr wood door, all six (6) sides of each garage door section must be finished within two (2) days of receipt of door and prior to installation to validate the warranty.

Preparation: Lightly buff or sand any natural surface imperfections.

Painting or Staining: Prior to installation, all six (6) sides of each garage door section must be painted (or sealed) with one (1) coat of exterior grade primer (or stain) and two (2) coats of high quality exterior grade paint (or sealer, if stained), in accordance with the finish manufacturer's instructions. Dark shades are not recommended for stain grade wood doors on southern or western exposures. Dark shades may require additional maintenance.

Care & Maintenance

To maintain the appearance and the safety of your garage door, regularly inspect the door and the area in which the door operates. Wood doors require periodical inspection of the door finish. Visually inspect the door once a year to determine if the finish is weathered, deteriorating or thin. Stripping and refinishing of door may be required.
